## Sworn to Secrecy

*By Adam Trombly*

*So now we have the former Director of Intelligence at the CIA singing loudly against Dick Cheney and the War. It cost folks plenty to finally hear his version of the events that led up to the invasion of Iraq. Richard Durban (Democratic Congressman, Illinois) is also suddenly coming forward with revelations regarding the contradictory intelligence he had access to in the House Intelligence Committee. Durban claims that he knew all the way back when the initial vote to go into this conflict was made that it was “not justified”. He says he was sworn to secrecy. He could not speak the truth even though by doing so he would have quite possibly saved thousands of American lives and tens of thousands of Iraqi lives.*

**I am telling you all of this even though I would rather be writing about the Boundless Luminosity of Infinite Space, the Holy Spirit, the Intrinsic Awareness that pervades and is always already the spontaneous Presence of our being. However, if I did not continue to point these things out it would be like philosophizing on the way to the crematoria that the new corporatocracy has prepared for us all. Just ask the thousands of those still missing in the Gulf States after Katrina and Rita.**

Let's see. Does “sworn to secrecy,” mean “get out of jail free” for say... treason or mass murder? What is wrong with this picture? The Director of Intelligence along with a few Senators and a few Representatives of the People of the United States of America (and their respective “Intelligence Committees”) sat by in silence while our Democracy was hijacked and then remained silent as our armed forces were taken into an entirely unjustified war. Seem like treason to you? What kind of “Rule of Law” is represented by such preposterous protocols? What kind of Democracy is this?

Once again we must ask and ask very loudly, **“Who do you really serve?”**

Mr. Tenet and Mr. Durban what do you say **now** to the bereaved parents and loved ones of our troops? What do you say to the spirits of the departed? What rationale do you give the permanently injured? “Gosh I'm sorry. I should have probably said something at the time?” For that

matter, why is it that we, as a Nation, which overwhelmingly believes that George W. Bush and Dick Cheney were never duly or truly elected to Office, continue to tolerate their usurpation of our country's Executive Authority year after year? I will not stop saying this until our Senators and Representatives of all parties begin acting like human beings with honor and uphold the "Constitution of the United States of America" by actually ridding our country and *our* White House of these parasites.

As much as I may like and admire Madame Speaker Pelosi, she and her colleagues must hear that the American People will not rest until they do their job.

Come on People, our Earth is now profoundly destabilized. The ice caps are melting, the winds are blowing with unprecedented ferocity, the light of the Sun comes with a cancer warning, the air is less fit to breath and the water less fit to drink than ever before in human history and oh yes, the bees are dying.

Sixty percent of the bees in the Western United States and seventy percent in the Eastern United States have gone missing. Forty percent have vanished in Canada and thirty percent are now dead in Germany. This goes on and on.

Albert Einstein once noted that, "If the bee disappeared off the surface of the globe, then man would only have four years of life left. No more bees, no more pollination, no more plants, no more animals, no more man."

Even so, we let international megacorporations like Monsanto dictate our agricultural policies not just in the United States but increasingly worldwide. They have created a strain of corn, which holds the dubious designation 'Bt corn' which has been modified to produce its own insecticide. This insecticide is fatal to bees and you can bet your last breath Monsanto and its corporate allies were warned long ago of this danger. They were warned but we weren't.

I am telling you all of this even though I would rather be writing about

the Boundless Luminosity of Infinite Space, the Holy Spirit, the Intrinsic Awareness that pervades and is always already the spontaneous Presence of our being. However, if I did not continue to point these things out it would be like philosophizing on the way to the crematoria that the new corporatocracy has prepared for us all. Just ask the thousands of those still missing in the Gulf States after Katrina and Rita.

Most people don't know that there are still thousands who are unaccounted for in the Gulf. These people are not here to demand their temporary housing units, which sit decaying in Federal depots. These souls are not here to raise their voices above the den and the stink of the corruption of corporate hegemony, which is only now slowly losing its grip on the Peoples' House. This Administration will not even acknowledge their deaths.

There are however, National Guardsmen who witnessed the removal of corpses from both New Orleans and untold towns and villages throughout areas devastated by Katrina and Rita. A couple of these young men found ways to communicate to Project Earth about what they saw. They described convoys of eighteen-wheeler refrigerator trucks hauling the dead to mobile crematoria somewhere in Mississippi. They asked, "Who were those other soldiers dressed in black? What is this [Blackwater](#) anyway?"

If you really believe the death tolls given to us by this Administration after Katrina or any other natural disaster, if you really believe that only twenty people died on February, 2nd 2007 in Central Florida as five deadly tornadoes plowed through mile after mile of bedroom communities in the middle of the night, without any warning sirens sounded, leaving only rubble in their paths, then your mind is the twenty-first fatality.

One reporter, while interviewing a man who miraculously survived those storms, was told, "Hell, there are at least twenty people who died just here in this neighborhood. They were my friends and now they are gone. I don't know if those people in Washington think that we're all stupid out here, but if they do then I guess we'll just have to show them

differently.”

The killing grounds of global climatological and geophysical destabilization could soon be right where you are. Project Earth has been warning about this now for well over a generation. We have been raising our voices since long before it was acceptable to do so. We have been offering solutions for all of that time. Those who are destroying the earth want you to believe that our warnings and our solutions are suspect and not their endless effluvia of lies.

In the mean time Mr. Cheney has dictated that his Halliburton corporate headquarters be moved to Dubai. This makes the records of that corporation subpoena proof and also gives Mr. Cheney an extradition free refuge when the People wake up and seek justice.

While residing in Dubai Mr. Cheney could continue to be Commander in Chief of his Blackwater mercenary army now numbering over one hundred and twenty thousand “soldiers” in Iraq. Who is paying for this army? The American taxpayer is.

On this anniversary of George Bush’s preposterous declaration of “Mission Accomplished” we need to ask the same question our young National Guardsmen asked. What is this [Blackwater](#) anyway? Maybe it is time to flush.
